Hi all,

Attached here are the Agency Review drafts of the Tox Review and Supplemental Information that incorporates comments and edits from me and Karen Hogan. I wasn't able to review everything and I'm not sure if Karen had more comments but in the interest of time, I wanted to go ahead and send you these. Please note, there are a number of comments to be addressed. Given the amount of time we are dealing with, in addition to incorporating the Agency review comments, the best thing we can do right now is identify the comments that should be addressed prior to submission to Step 3 and comments that can be addressed while in Step 3 review. Several things to consider as we go through this exercise: 1) we can have a mark-up meeting or two to address some of the comments in real time; 2) we can get help from the DWGs and others to finish up this high priority work; 3) I am lining up help from the TIMs for tech edit and science edit for document clarity and presentation.

To get the conversation started, here are some outstanding questions and major issues to be addressed that come to mind:

Deliberative Process / Ex. 5

Let's discuss briefly during our Monday meeting on the factsheets and can set up another meeting to get started with addressing the comments.

Thanks,
Samantha
